30-59 days

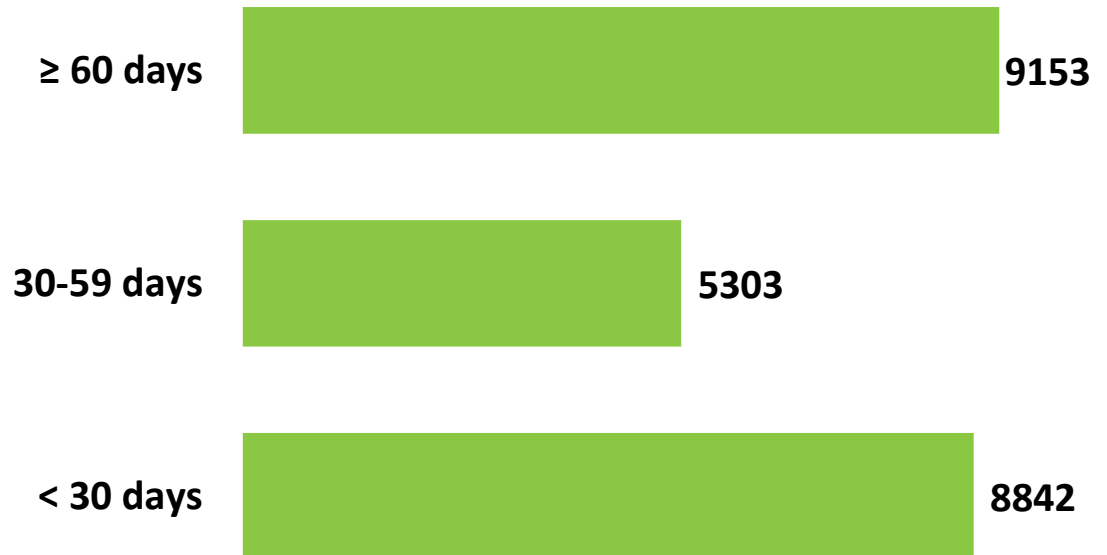

≥ 60 days

2013-2014 Frequency of 21st CCLC Program Attendance

Compared to students who attended afterschool programs 30-59 or less than 30 days, more students attended programs 60+ days in 2013-2014. This is the first time the 60+ day attendance category has exceeded the other two categories in Indiana.

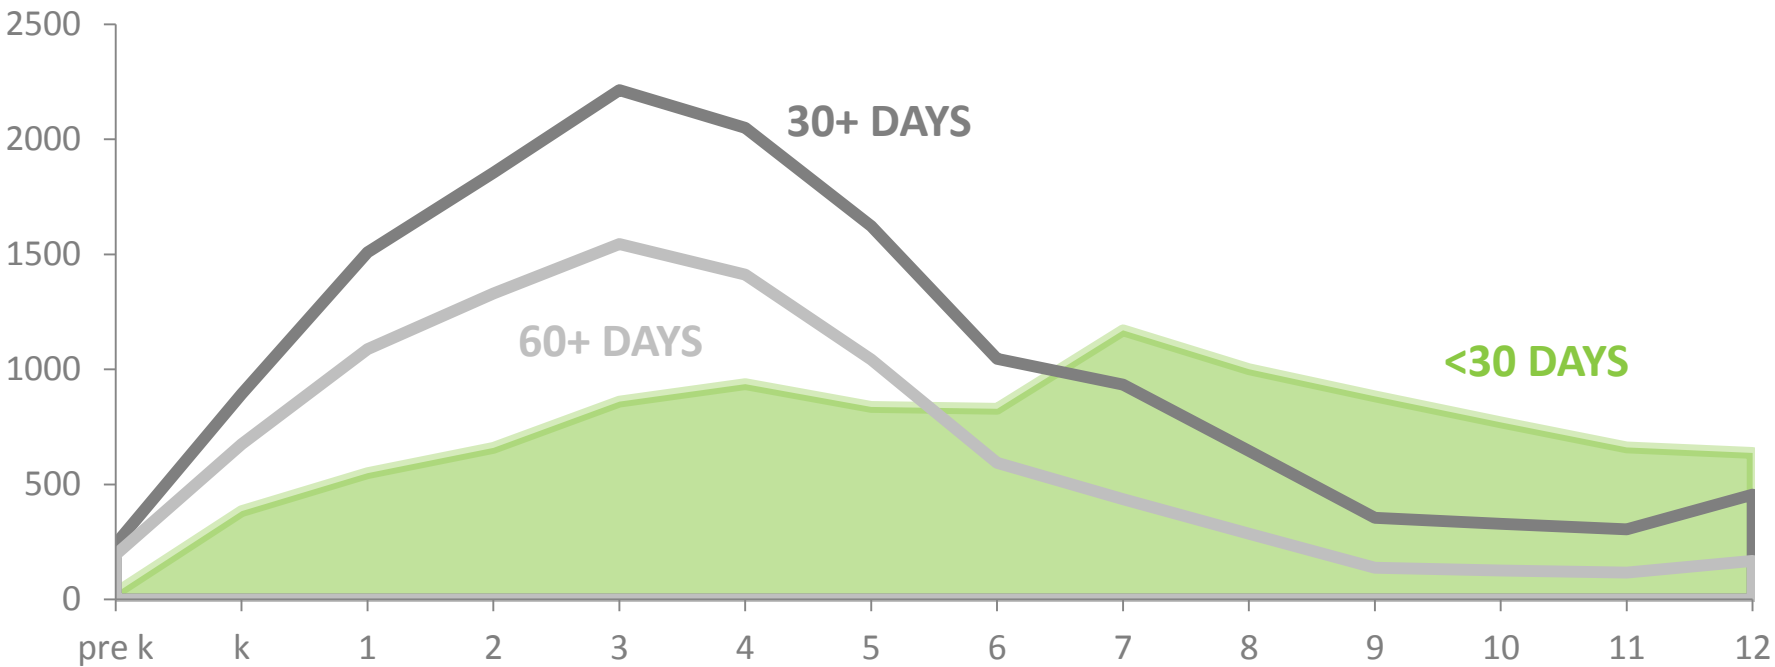

Research shows that high quality afterschool programs are most likely to provide academic benefits for students who attend at least 60-100 days per year (for 2+ years)

39% of 21st CCLC participants attended 60+ days during the 2013-2014 school year.
(This represents 9,153 out of the 23,298 students who attended a program at least once during the school year)

Frequency of 21st CCLC Attendance by Grade Level

Students in grades K-6 make up the majority of Indiana’s most frequent 21st CCLC participants. More third graders attend the program 60+ days compared to all other grades.

21st CCLC Program Attendance by County

- Students in the Northwestern and Western portions of the state were less likely to be served by 21st CCLC programs in 2013-2014.
- Marion County participants comprised 27% of students served statewide.
